Is Your Skin Troublesome in Summer?

Summer's heat and glare induce all sorts of ailments owing either to excessive perspiration, over-heating, rashes, prickly heat (summer itch), pruritis, pimples, to both housewife and breadwinner. Face, neck, the skin tissue happens to be weakest—are all liable to irritating, skin troubles, and the way to cure them is to apply dressings of Zam-Buk.

The soothing, herbal juices of Zam-Buk are natural to the pores, strengthening the tissues, and imparting to the skin the power to resist the evil effects of summer heat and glare from ordinary ointments, salves, lotions, or cosmetics, which are irritants and fatty mineral substances, because the skin is so constituted that when applied to the skin of dispelling disease and restoring the skin to perfect health.

Zam-Buk— because it is so wonderfully soothing, readily healing, and powerfully antiseptic, and because its active vegetable constituents are so pure and wholesome—is invaluable for cuts, burns, bruises, abrasions, boils, pimples, etc., and is obtainable from all chemists and

stores at 1/6 and 3/6 per pot (3/6 size holds nearly four times the 1/6), or post free from the Zam-Buk Co., 39 Pitt-street, Sydney.

The vast superiority of Zam-Buk is due to two main facts—First, vegetable saps, juices, and oils of which are derived from certain medicinal properties; and, second, the ready and speedy manner of its absorption for this, and also for its superiority over all ordinary ointments, salves, and mineral poisons, which clog the pores and irritate the delicate skin, the healing of Zam-Buk amply justifies the claim: "Every Home Needs a

SOUTH AUSTRALIA WINS.
BY SEVEN WICKETS.
RAIN INTERFERES WITH PLAY.

The match between New South Wales and South Australia was concluded on the Sydney Cricket Ground yesterday, in the presence of a large number of spectators. The result was a victory for the South Australian team by seven wickets. The match was interrupted by rain for a considerable period of the day.

The following is a summary of the play:

First Innings: New South Wales scored 150 runs, losing 10 wickets. The batting was supported by a strong bowling performance from the South Australian bowlers.

Second Innings: South Australia scored 157 runs, losing 10 wickets. The batting was supported by a strong bowling performance from the New South Wales bowlers.

The match was a closely contested one, and the result was a surprise to many of the spectators. The South Australian team played a very strong innings, and their bowling was excellent.

CASUALTIES.

Rain fell heavily on Monday night, and caused some damage to the cricket, but the batsmen after making a target of 100, continued the match. When the players were about to take their places in the field there was a heavy down-pour of rain, which was very inconvenient for the batsmen. The cricket was not the best of order, and became somewhat soiled about as the day wore on. The freemen, however, were not deterred, and were all greasy, and the advantage was probably won in favour of the batsmen than the bowlers.

DEAD BIRD FOUND.

The body of a newly-born male chick was found yesterday in a public lavatory at the back of the Prince of Wales Hotel, in the street, Newton. It was wrapped in paper, and was found by a policeman. The body was taken to the Morgue.

WHARF-LABOURERS INJURED.

Edward Tibbot, a wharf-labourer, was working on the steamer Harpoon at Howard Smith's wharf, when yesterday afternoon he was severely injured by falling from the steamer. The coroner found that the

SCHOOLBOY INJURED.

A magisterial inquiry was held yesterday afternoon at the Police Court, where the case of a schoolboy was heard. The schoolboy was found that the

The victims made a bad start in the game before he had scored. Leck was dismissed before he had scored. However, the game was a draw, and the two players were not disappointed. With only two required to win, Hill, who was at his wicket, and Woolcock, who filled the place of the dismissed batsman, won the match. South Australia thus winning by seven runs.

Mayne and Leck were the opening batsmen. Mayne and L. A. Minnett took up the attack. Mayne was dismissed before he had scored. Crawford followed, but a smart shower of rain caused the game to be abandoned. The result was a draw.

A distance of about 150 ft. His head was severely injured, and the Civil Ambulance was called to take him to the hospital. He was admitted by Dr. Parker. Talbot is 40 years old, and lives in Mort-street, Halmstad.

Another wharf labourer, George Coxall, aged 35, was injured on the wharf at the end of the pier to shift a heavy boiler on Parkbury's wharf yesterday afternoon. The funnel of the boiler was shifted, and fell on his head, fracturing his skull. He was taken to Sydney Hospital, whither he was conveyed by the Civil Ambulance.

A PAINFUL ACCIDENT.

ANOTHER I

Two men working at Leck's yard, on the wharf, were injured by the falling of a stack of timber. One of the men was killed, and the other was seriously injured. The accident occurred on the 10th inst. Mr. John Griffiths was brought to Dr. Foster's surgery for treatment for an injury to his hand. Griffiths stated that he had been driving a car when the thumb had been torn from the joint. Griffiths received the information that the patient came from the injury whilst driving a team of bullocks on a road near the town of Ballyvaughan. Griffiths thumb became caught in the chain of a team of bullocks. Griffiths had a number of the books, and somewhere between one of the books, and somewhere between the thumb, the thumb was almost pulled out. Griffiths was unable to move his thumb. Griffiths was taken to the surgery and the thumb was removed. Griffiths will result.

During now became more rapid. Will being more aggressive of the two. With the horse at 82, Emerson rolled over and yielded seven runs. With a boundary hit, he crossed the century up, after 1 hour 4 minutes' play.

It was nearly 8 o'clock when the players were added to the score. A downpour delayed the match for 15 minutes. The rain continued to fall, and the wicket was again stopped. The captain, however, after inspection decided to play on.

It did not seem to affect the batsmen, as runs were made quickly than before. The 150 up to 122, after 122 minutes' play.

Summer's heat and glare induce all sorts of itching, smarting, irritating skin troubles. owing either to excessive perspiration, over-heating, or dryness, and sunburn, heat swellings, rashes, prickly heat (summer itch), pruritis, pimples, and blotches cause pain and annoyance to both housewife and breadwinner. Face, neck, arms, body, and legs—whichever part of the skin tissue happens to be weakest—are all liable to be attacked by these tingling, burning, irritating, skin troubles, and the way to cure them and restore the skin to health is to apply dressings of Zam-Buk.

The soothing, herbal juices of Zam-Buk are naturally absorbed by the skin, thus purifying the pores, strengthening the tissues, and imparting a degree of health to the skin that enables it to resist the evil effects of summer heat and chafing winds. It is impossible to get relief from ordinary ointments, salves, lotions, or cosmetics, largely composed of rancid animal irritants and fatty mineral substances, because they tend only to aggravate skin trouble. Zam-Buk is so constituted that when applied to the skin it becomes Nature's ally in the work of dispelling disease and restoring the skin to perfect health.

Itching, Irritating Rash.

"Last summer," says Mr. J. Parker, of 1455 Alice-street, Newtown, Sydney, "a rash broke out all over my body, and the irritation caused me to be constantly scratching and rubbing it. I bathed my body with different solutions, but could gain no relief. Remembering I had Zam-Buk in the house I applied it to the feet, and after two applications all the skin and irritation disappeared. I continued the treatment for two or three days by which time the rash had completely vanished. My wife is also a great believer

Mrs. Margaret Gunson, of 157 Hoddle-street, West Richmond, writes:—"I am a canvasser, and am, sore, constantly on my feet. My insteps became very sore, and broke out in sores, which forced me to lay up several days. I applied different lotions procured from the chemist, but they utterly failed to give me relief. When I saw an advertisement for *Sam-Buk* advertised, I procured a pot. Before I used half of it, the sores were all healed, and the burning

The vast superiority of Zam-Buk is due to two main facts—First, the wonderful purity of its active constituents, the vegetable astringents, juices, and oils of which are derived from certain medicinal herbs containing potent healing and antiseptic properties; and, second, the ready and speedy manner of its absorption by the skin. Zam-Buk's refined composition accounts for this, and also for its superiority over all ordinary astringents, salves, and embrocations, containing crude animal fats and mineral poisons, which clog the pores and irritate the delicate skin, and do more harm than good; and the ideal soothing and healing of Zam-Buk amply justifies the claim: "Every Home Needs a Pot."
